Education

Dr. Ambedkar Institute Of Technology For Handicapped

Bachelor Of Technology in Computer Science and Engineering

Kanpur, Uttar Pradesh

Nov 2022 – July 2025

- Cumulative GPA : 8.24/10

Skills

- Technical Skills:** Python, JavaScript, HTML5 , CSS, React.js, Next.js, Tailwind, Material- UI ,TypeScript , Node.js, Express.js , MongoDB, PostgreSQL
- Developer Tools:** Git-hub, VS Code, Vercel , Render
- Soft Skill:** Leadership,Team Work

Experience

Associate Software Engineer

Shunyity Tech Solutions

Jul 2025 – Present

Lucknow, Uttar Pradesh

- Developing type-safe, production-grade applications using **TypeScript, React, and PostgreSQL**, improving code reliability and maintainability.
- Architected modular frontend components and reusable hooks, reducing development time for new features by 30+ %.
- Optimized database schema design and query performance in PostgreSQL, enabling efficient handling of large datasets.

Full Stack Developer Intern

Shunyity Tech Solutions

March 2024 – Jul 2025

Lucknow, Uttar Pradesh

- Built and deployed scalable full-stack web applications using **Next.js, Node.js, and MongoDB**,improving overall application performance and load efficiency.
- Designed RESTful APIs and optimized database queries, reducing response time by up to 40% for high-traffic endpoints.
- Collaborated on feature development and debugging across frontend and backend, ensuring smooth integration and faster delivery cycles.

Projects

AI Doc Generator (NPM Library)

| [Git-hub](#) , [Live](#)

- Engineered a **Node.js CLI tool** that automates backend documentation by scanning TypeScript/JavaScript source code and utilizing the **Gemini API** for intelligent content generation.
- Built logic to automatically generate structured Markdown files, including API testing guides and project overviews, directly within the local directory structure.

Audio-Book (Python)

| [Git-hub](#)

- Developed an **Audio Book** application using Python libraries such as **PyPDF2, pyttsx3, and Tkinter** to seamlessly convert written text into spoken words, enhancing accessibility and improving user engagement by 40%.
- Significantly benefits individuals with **visual or physical impairments** by providing an alternative to reading printed text, thereby promoting inclusive technology usage.

Weather Forecasting (React.js)

| [Git-hub](#) , [Live](#)

- Built a real-time weather information tool enabling users to conveniently access current weather conditions, improving information accessibility by 35%
- Displays key metrics such as temperature, humidity, wind speed and direction, visibility, and air pressure, enhancing user awareness and decision-making.
